

Paseo Master Association  
Presidents Report  
October 2020

With an abundance of caution the Village center is opening venues such as indoor dining and movies and lifting restrictions at the Tiki and the courts. We urge members to continue to follow safety recommendations such as social distancing, handwashing and facemasks where appropriate. As part time members and guests return we want everyone to stay safe and enjoy our beautiful community.

As always, this board welcomes feedback both positive and constructive. Please let us know what we have done right and areas that may need a little improvement.
