

Paseo Master Association
Presidents Report
February 2021

Thank you to all of the members who participated in last week's Finance Workshop and thank you to John for a well prepared and informative presentation. Member engagement and input is important to the board. If you missed the meeting you are encouraged to watch on the mypaseo.life website. The presentation provides a look at upcoming projects and a wish list of future projects. The highest priority project is the Tiki upgrade which will improve operations and appearance of the Tiki area along with a better working environment for our staff.

Please continue to adhere to safety guidelines in and around the Village Center. The new variants of virus that causes covid-19 appear to me more contagious. We want to continue current operations so please act responsibly and courteously.
