

Paseo Master Association
Presidents Report
February 2022

This is the busiest season ever for all of southwest Florida including the Paseo village center that and the hospitality industry is experiencing significant staff shortages. We have been successful hiring and retaining wait staff but are struggling to hire back of the house employees. Our kitchens are way under staffed which is causing us to adjust operations at times. We understand that members want the more indoor dining and events. However, this is quite difficult when we are short of kitchen help. We ask for your patience and understanding. Please be nice to our staff, all of our staff. Our management is doing everything they can to add staffing.
