

Paseo Master Association
Presidents Report
May 2021

On behalf of the board and management please accept our apologies for the lack of entertainment in May. We understand how important this is to members. We were very short of bartenders and servers so this was the best option to reduce stress on our staff. Please be patient with the staff as we are working to fill these positions. And please direct negative feedback to board members or management as serving staff cannot change the situation and only adds more stress to the situation. The expectation is to bring back entertainment in early June.
